Junior Software Developer

CodeTech Solutions — Quezon City, Philippines

2024 – Present

- Developed and maintained basic PHP-based web applications.
- Created responsive web pages using HTML, CSS, JavaScript, and Bootstrap.
- Designed and managed MySQL databases.
- Fixed bugs and assisted in troubleshooting application issues.
- Used Git and GitHub for source code management.
- Worked with senior developers to implement new system features.

- Participated in testing and documentation of software applications.

IT Intern

Digital Solutions PH — Manila, Philippines
2023 – 2024

- Assisted developers in creating and testing web applications.
- Helped maintain databases and organize system records.
- Performed basic debugging and software testing.
- Created documentation for system features and procedures.
- Provided technical support to team members.

EDUCATION

Bachelor of Science in Information Technology
Caloocan City University
2020 – 2024

PROJECTS

Job Matching System

Developed a web-based platform that connects job seekers with employers. The system allows employers to post job vacancies while applicants can create profiles, upload resumes, search for jobs, and submit applications.

Technologies: PHP, MySQL, HTML, CSS, JavaScript, Bootstrap

Employee Management System

Created a basic system for managing employee information, positions, departments, and employee records.

Technologies: PHP, MySQL, HTML, CSS

CERTIFICATIONS

- Web Development Fundamentals
 - PHP Programming Fundamentals
 - MySQL Database Fundamentals
 - Responsive Web Design
